**CORPORATE SERVICES:**

Committee Chair Mackie Ross read a report from the Corporate Services Committee meeting held on April 19th.

**Continuing Records Check:**

The Corporate Services Committee reviewed questions and answers which will be circulated to all staff once the revised polices and procedures have been implemented. The Committee approved a recommendation that all Board Employees (NSTU, NSGEU, CUPE and Non-Union) hired prior to 1997 be urged to complete the Child Abuse Register and Police Records Check, at no cost to the Employee.
Committee Chair Mackie Ross advised that although a recommendation proposing that Board Members and Senior Management also complete Child Abuse Register and Policy Record Checks was to have come forward for consideration this evening, it was decided to defer the matter to the Corporate Services Committee for additional discussion.

**French Immersion:**
Legal Counsel for the Board has advised that if the Board moves a French Immersion Program from one location to another, a consolidation and/or reorganization study would not be required.

**Curtis Drive Property:**
Correspondence has been received from the Department of Education regarding Board-owned property on Curtis Drive. The Department was inquiring whether the Board would be willing to make the Curtis Drive site available to be utilized as part of the negotiation process in acquiring the property for the new elementary school in the west end of Truro.

The Committee agreed to refer the discussion to the May 3rd Committee-of-the-Whole meeting where a decision was made to postpone a decision on the matter until the May 10th Board Meeting when Board Member Bert Young, Truro representative, would have an opportunity to contribute to the debate.

Mr. Young, in providing his interpretation of the process to date, expressed disappointment with the procedure. In light of the lack of information surrounding the acquisition of the Kaulback Street property for the site in question, Mr. Young voiced his opposition to utilizing the Curtis Drive site as part of the negotiation process.

Member Alex Cope provided a rationale and support for building the new school on the Curtis Drive property as opposed to the Kaulback Street site.

The Board subsequently determined it required additional information regarding the progression of the Kaulback Street land acquisition in order to make an informed decision. Director of Operational Services Herb Steeves was asked to invite the Department of Education, Facilities Management, and Department of Transportation and Public Works representatives involved in the process to the Corporate Services Committee meeting on May 23rd to provide a status report regarding the land acquisition.
Truro East and Truro West:

As a result of delays in acquiring land for the new elementary school in the west end of Truro, the Department of Education has asked if the Board would like to delay construction of the new elementary school for the east side (Harmony Road site) as well, in order to maintain concurrent opening dates for the two schools.

The Committee agreed that the matter be referred to the May 3rd Committee-of-the-Whole Meeting where the topic was discussed at length. During additional discussion on the matter at the May 10th Board meeting Keith MacKenzie, Board Vice-Chair, introduced a notice to reconsider a motion that carried at the June 9th, 2004 meeting of the Board approving a recommendation that the two new elementary schools slated to be built in Truro be constructed and opened at the same time.

Members agreed in principle with a suggestion, put forward by Board Member Jim Grue, to advise the Department of Education that it would be best to separate the construction schedules of the two new elementary school projects in order to prevent further delays. An official decision on this matter will be provided to the Department of Education following the Board’s formal vote at the regular monthly meeting on June 14th.

It was MOVED by Mackie Ross, seconded by Marilyn Murray
